

Howard, 11/14/72 When you are here, if it interests you, there is something I have just gotten from a western Penna. history professor re Cyril. It is an interview with the Pitts. underground newspaper. There is little new in it but a more interesting Tippit formulation, leaving no doubt Cyril says Oswald killed him. The story is less explicit on JFK, but explicit enough for the head, "Oswald Not Alone" in it. He remains quite careful to disclose nothing he has seen, if he saw anything new. Here he pretends that his seeing the clothing is different than the testimony about it, although he has only part of what is in that testimony. That bankrupt. Best,
